

Quality Assurance Tester

ThitsaWorks Solutions Myanmar Co., Ltd. is a financial technology company based in Myanmar that provides financial technology solutions for Microfinance Institutions and other financial institutions to collect, manage and analyze data needed to run effective operations and to manage risks. ThitsaWorks is passionate about solving complex business and social challenges using data as a tool.

ThitsaWorks believes that poverty can be solved, and that if the poor has access to capital, they will be able to retain the returns of their labor and will be empowered to rise out of poverty.

ThitsaWorks also believes that technology is a key tool in making this happen. It wants to help financial institutions in Myanmar grow and reach out to the unbanked population and believes that financial inclusion can put an end to poverty.

Quality Assurance Tester reports to Quality Assurance Team Leader.

Responsibilities

- Reviewing business requirements and technical design documents to engineer test cases and conducting testing in all phases of software development lifecycles;
- Liaising with internal teams (e.g. developers and product managers) and external teams to identify system requirements;
